

## INFORMATION FOR AUTHORS

Our journal publishes original research papers in mathematics. A submission is preferred if it has a connection to a research area of a member of our editorial board. Serious deficiency of such a connection may be a reason for rejection.

Authors are encouraged to submit their papers electronically at [https://ef.msp.org./submit/ak\\_smh](https://ef.msp.org./submit/ak_smh) in pdf form.

Only original papers will be published and a copy of the License Agreement will be sent to the authors of papers accepted for publication. Accepted manuscripts will be further processed only upon receipt of the signed copy of the agreement.

The Author is entitled to self-archive the postprint version of their manuscript. The postprint version is the Author's manuscript or the galley proof or the Author's manuscript along with the corrections made in the course of the peer review process. Self-archiving includes the free circulation of this file via e-mail or publication of this postprint on the Author's webpage or on the Author's institutional repository. When self-archiving a paper the Author should clearly declare that the archived file is not the final published version of the paper, he/she should quote the correct citation and enclose a link to the published paper ([https://doi.org/\[DOI of the Article without brackets\]](https://doi.org/[DOI of the Article without brackets])).

Open Access. Authors can use the Optional Open Access publication model for a specific publishing fee. It is an option for the author to pay the Article Processing Charge (APC) and have the final full text version of his/her article published as an Open Access one. The full text of an Open Access paper is freely accessible through the official website of the journal. These papers are also published in the printed journals as well as all the traditional ones. The peer review process and the quality requirements are the same in case of both traditional and Open Access manuscripts. Both accepted new manuscripts and papers published earlier can be Open Access.

The APC of an Open Access article is 900 EUR, but it can be even less. Akadémiai Kiadó offers discounts for institutions of low- and middle-income countries and Editorial Board members. Discounts may not be combined.

By signing the Open Access License Agreement and paying the APC, the Author retains the ownership and further rights related to the Article while ensuring the wide accessibility of the Article in the written and electronic media controlled by Akadémiai Kiadó. See <https://akademiai.com/page/openaccess> for details. Should you have any questions, please contact the editors of the journal.
