TARTALOM

I. Pathways Communication Grants 2023	1
II. Request for nominations: The social determinants of mental wellbeing in young people	2
III. Call for nominations for scoping experts for the second global assessment of biodiversity and ecosystem services	2
IV. Grand Prix de la Fondation (Le Grand Prix de la Fondation de la Maison de la Chimie)	2
V. Other upcoming events	2
- Lump Sum Funding in Horizon Europe: How does it work? How to write a proposal?	2
- ERC Annual Conference 2023: Research on Diversity & Diversity in Frontier Research	3
- The Ocean Decade is looking for new expert members of its Decade Advisory Board	3
- ISC Fellowship 2023	3

I. Pathways Communication Grants 2023

The **Pathways Communication Grants Program** seeks to ensure that scientific contributions supporting the development of pathways for sustainability reach relevant audiences beyond the scientific community. To promote wider uptake and understanding of pathways for sustainability, the grant supports the dissemination of scientific findings of place-based research projects via innovative formats and practices.

Researchers, including PhD students, who are affiliated with universities and/or research institutions are invited to submit proposals for communication products that aim to disseminate scientific outcomes developed within inter- and/or transdisciplinary place-based research projects on pathways for sustainability, and are addressed to the broader public. This grant supports the communication of research that has already been completed.

Deadline: **31 October 2023 at midnight CET**

II. Request for nominations: The social determinants of mental wellbeing in young people

On the occasion of World Mental Health Day, the **International Science Council (ISC)** has agreed to undertake a collaborative project with the WHO exploring the causes of the apparent rapid increase in loss of mental wellbeing in young people.

The ISC will draw an **oversight panel** and a **project team** from around the world and from diverse disciplines, including **younger experts**. These will be drawn from nominations from the broad range of academies, as well as natural and social science bodies that are Members of the ISC.

ISC member representatives are invited to suggest suitable experts for both the oversight panel and project team by **10 November**. It is envisaged most of the work would be virtual and the aim is to complete the project in **24 months** from initiation. The commitment will be around **2-3 hours per month**.

Deadline: **10 November 2023**

Further information and nomination [Here](#)

III. Call for nominations for scoping experts for the second global assessment of biodiversity and ecosystem services

The **IPBES Multidisciplinary Expert Panel** herewith invites Governments and other relevant stakeholders to nominate experts to assist with the scoping process for a second global assessment of biodiversity and ecosystem services. Nominated experts should have expertise relevant to a global assessment of biodiversity and ecosystem services in one or more disciplines within natural science, social science or humanities. IPBES is, in particular, seeking experts with an interdisciplinary background with experience working at various scales (e.g., global, regional, subregional, national, and ecosystem-level scales).

All nominees need to be available to attend the scoping meeting that is part of the scoping process, tentatively scheduled for **March 2024**.

Deadline: **12 November 2023**

IV. Grand Prix de la Fondation (Le Grand Prix de la Fondation de la Maison de la Chimie)

The Prize is intended to reward an original work in chemistry, of benefit to mankind, society or nature. Entries must imperatively be presented through a scientists' society or a national or international scientific organisation without any direct link with the nominee. Entry forms, together with a report detailing the arguments for the nomination, must be returned to the Fondation de la Maison de la Chimie.

Deadline: **30 April 2024**

V. Other upcoming events

- Lump Sum Funding in Horizon Europe: How does it work? How to write a proposal?

Horizon Europe uses lump sum funding to reduce administration and financial errors. In the upcoming session will take a closer look at the practical experience of the lump sum grants in the framework of a panel discussion

consisting of 3 invited guest. The event will be held online on **19 October 2023 10:00-12:00 CEST**. For the Agenda and further description, please visit the following [Link](#).

- **ERC Annual Conference 2023: Research on Diversity & Diversity in Frontier Research**

This **online workshop** will showcase frontier research projects funded by the **ERC** that both study diversity in society and that exemplify the importance of taking diversity into account in research designs. The conference will take place on **28 November 2023**. For further information, please click [Here](#).

- **The Ocean Decade is looking for new expert members of its Decade Advisory Board**

The **Decade Advisory Board (DAB)** is a multi-stakeholder advisory body that is in charge of assisting the Secretariat of the Intergovernmental Oceanographic Commission (IOC) of UNESCO with the aim of coordinating the UN Decade of Ocean Science for Sustainable Development. The new expert members of the Board will be serving in a two-year term from 1 January 2024 to 31 December 2025, and they will be involved in monitoring of the Decade implementation, identifying gaps and opportunities, advising on data stewardship strategies etc. Apart from UN entities, self-nominations from non-governmental organizations are encouraged to apply before **30 October 2023**. For additional information and nomination, please click [Here](#).

- **ISC Fellowship 2023**

There are **5 days left** to nominate your exceptional candidates for the **ISC Fellowship**. New Fellows will be announced in December 2023. This year's call continues to seek individuals who have an excellent track record in at least two of the following domains: promoting science for the global good internationally; providing broad scientific leadership (in the international or regional arena); promoting the global voice of science; developing and leading major scientific initiatives and structures and scientific accomplishment. ISC Fellowship nominations for the next intake of Fellows must reach the ISC by **15 October**. To nominate your Fellows, please visit this [Link](#).

Kérjük szíves közreműködésüket abban, hogy a tájékoztató azon részei, amelyek a kutatóhely számára relevánsak, megküldésre kerüljenek annak vezetősége, illetve minden érdeklődő és érdekelt munkatárs részére.

Együttműködésüket köszönjük!
