Összefoglaló tájékoztató nemzetközi együttműködési lehetőségek, konferenciák és webináriumok vonatkozásában

2024. június 19.

TARTALOM

I. CoARA munkacsoport felmérés - Kísérletek az értékelésben

A *Kísérletek az Értékelésben* nevű CoARA munkacsoport célja a kutatás és kutatók értékelésének új, folyamatban lévő, kreatív és/vagy szokatlan módjainak felmérése, összegyűjtése. Erre a célra összeállítottak egy rövid felmérést, amelynek eredményeként ezekből a gyakorlatokból egy katalógust kívánnak összeállítani, majd online közzétenni.

A munkacsoport azzal a kéréssel fordult a és a HUN-REN kutatóközpontjaihoz és kutatóintézeteihez, hogy támogassák munkájukat az említett kérdőív kitöltésével.

A kérdőív a következő linken érhető el: **Experiments in Assessments - CoARA WG (qualtrics.com)**

II. R&I priorities of the Hungarian Presidency of the Council of the European Union

Attached to the email, you may find the presentation outlining the R&I priorities of the Hungarian Presidency of the Council of the European Union in the second half of 2024. In addition, the Hungarian Presidency website is now accessible **Here** and the detailed programme of the Presidency can be downloaded via this **Link**.

III. AI and other digital techs: a revolution in knowledge valorisation? - Webinar

From results scouting to patent drafting and AI-assisted inventorship, the interplay between AI and intellectual assets management is ever-growing. Digital strategies and tools can be developed and used to analyse research results and scientific knowledge. This can make us faster and more effective in finding economic potential and ways of deployment for research results. Principles and guidance can ensure a responsible and sustainable application of these AI/digital tools for knowledge valorisation.

Organised by the European Commission, this webinar will take a closer look at how will artificial intelligence (AI) and other digital technologies change the way we valorise scientific knowledge, and how to use them to make it more accessible for businesses, public administration, education, or other areas of public life.

Date: **27 June 2024, 13:00 - 13:40**

Place**: Online**

You can read more and register **Here**.

IV. Trends in Implementing AI in Research Organisations & Legal Aspects - Workshop

Artificial Intelligence is increasingly relevant in the research ecosystem as it has the potential to revolutionise research and innovation by accelerating the discovery of new knowledge, enhancing decision making and prediction, automating routine tasks, and facilitating cross-disciplinary collaboration. However, the increasing use of AI in research also raises ethical, legal, and societal issues that need to be carefully considered and addressed.

In this workshop, participants will explore the multifaceted impact of AI and its regulation in research activities and research management. Building on the outcomes of the first internal discussions, Science Europe will bring together experts and representatives from Member Organisations to share their experiences, concerns, and ideas related to the ethical and regulatory aspects of AI in research and innovation. There will be also discussed best practices and case studies of ethical AI in research and showcase convenient approaches and strategies for addressing ethical challenges and dilemmas.

Date: **28 June 2024, 14:00-16:00 CEST**

Place: **Online**

For registration, click **Here**.

V. ERC Info Day for Widening Participation

This info day is primarily designed for grant officers, project managers and other university staff who support researchers in developing, writing and submitting grant proposals to the ERC. The aim is to provide practical information for applying to the ERC grant calls, preparing a competitive proposal and strengthening the participation particularly from countries hosting few ERC grantees.

Date: **2 July 2024, 9:30-12:00 CEST**

Place: **Online**

For more information and registration, click **Here**.

VI. INORMS Congress 2025 - Call for abstracts

The European Association of Research Managers and Administrators (EARMA) announces the call for abstracts for the International Network of Research Management Societies (INORMS) Congress 2025. This year, the theme of the congress is *A Sustainable Profession in a Sustainable World,* and there will be explored a range of critical topics, such as building better RMA services; governance and regulation; knowledge valorisation; open science; responsible use of AI in RM, etc. This is the first time that EARMA has hosted the INORMS Congress, and organisers invite research management professionals from around the globe to contribute their insights and best practices.

Abstracts submission deadline: **16 September 2024**

For additional information, click **Here**.

VII. Elevating research impact: exploring the power of open research

The webinar hosted in collaboration between EARMA and Digital Science will bring together a panel of experts to delve into the evolving open research landscape. Participants will explore how data captured throughout the research lifecycle can unveil new insights and amplify research impact. In the webinar the following main topics will be covered: the collaborative effort required to fully leverage the benefits of open research; the pivotal role open research plays in bridging the gap between identifying collaborative opportunities and enhancing research visibility and attractiveness; emerging methodologies for research assessment to drive strategic decision making, etc.

Date: **3 October 2024, 14:00-15:30 CEST**

Place: **Online**

For registration and more details click **Here**.

VIII. Open calls and applications

Az alábbiakban tájékoztatást adunk azon nyitott eseményekről és pályázatokról, melyek az előző hírlevelekben megjelentek.

Name	Date	Place	Deadline	Links
HUN-REN Kutatói Mobilitási Program 2024			Ongoing	**Link**
EARMA-Led Events Linked To External Association Calendars: Event Access Award 2024			Ongoing	**Link**
Marie-Skłodowska Curie Postdoctoral Fellowship at the International Centre for Genetic Engineering and Biotechnology (ICGEB)			21 June 2024	**Link**
Mapping the training, mobility, networking and funding opportunities for Research Managers in Europe			24 June 2024	**Link**
