I. Strategic Technologies for Europe Platform és pályázati lehetőségek

A *Strategic Technologies for Europe Platform* (röviden STEP), az Európai Unió kezdeményezéseként 2024 tavaszán jött létre azzal a céllal, hogy támogassa az ipart és elősegítse a kulcsfontosságú technológiákba történő beruházásokat az Európai Unió területén. A platform tizenegy uniós programon keresztül három meghatározott célterületre koncentrál, melyek az alábbiak: digitális technológiák és mélyreható technológiai innováció, tiszta és erőforrás-hatékony technológiák és a biotechnológia. Továbbá támogatja azokat a projekteket, amelyek ezen kulcsfontosságú technológiáknak a fejlesztését szolgáló képesítések kialakítására irányulnak.

A kiváló minőségű projektek részére bevezetnek egy új minősítő pecsétet (STEP seal), amely láthatóvá teszi a STEP-projekteket, és megkönnyíti hozzáférésüket más lehetséges finanszírozási forrásokhoz. A STEP portál könnyen elérhetővé teszi az adott területen nyitva levő pályázati lehetőségeket, és közvetlen linkkel kapcsolódik a *Funding and Tender* portál megfelelő felhívásaihoz. A STEP portál honapját [itt](#) érhetik el.

A korábban említett biotechnológiai szektorban, az EU4Health program keretében jelenleg három nyitott pályázati felhívás található, amelyekre **2024. szeptember 5-ig** lehet jelentkezni ezen a [Linken](#).

II. Call for Papers: Trends in Political Science

The International Political Science Association (IPSA) and the International Political Science Abstracts seek articles for the journal's *Trends in International Political Science* rubric. Organisers gather leading articles on 6 main areas (Confucian political thought, affective polarization; AI and voter disinformation, democratic dissatisfaction, political consumerism, charismatic leadership) over the last 2-4 years and seek scholars with expertise in each of the above-mentioned themes to write a 3500–4000-word long overview of the subject taking into account the bibliography the organisers provide. After the review process, the Trends article is published as the first chapter of each bi-monthly issue

of the International Political Science Abstracts and distributed to libraries worldwide in print and database editions. Furthermore, authors will receive an honorarium of 500 euros, which may be shared with a co-author.

Those who are interested in writing an article in English on one of the topics should send an email to Trends.IPSA@gmail.com with copy to Stephen Sawyer (sawyer@aup.edu) and Daniel Stockemer (daniel.stockemer@uottawa.ca).

Deadline: **26 July 2024**

You can read more about the call [Here](#).

III. 30th International Population Conference

The IUSSP International Population Conference is the world's largest international scientific conference on population and demography. The conference brings together researchers, policymakers and practitioners from a wide range of disciplines and from across the globe, to present and discuss the latest research on a broad range of contemporary population issues.

Researchers in population and related fields are invited to submit an abstract of recent research for presentation in an oral or poster session. Individuals can submit no more than 1 abstract online. Submissions must include a short, 200-word abstract and an extended (2-4-page) summary in English describing the topic including theoretical focus, data, research methods, and expected findings.

The conference will occur in Brisbane, Australia, between 13-18 July 2025.

Deadline for submission: **15 September 2024**

For more details click [Here](#).

IV. 2025 European Prize for Women Innovators now open for applications

The European Innovation Council (EIC) and European Institute of Innovation and Technology (EIT) launch the 2025 edition of the European Prize for Women Innovators. This joint initiative celebrates the outstanding achievements of women entrepreneurs driving positive change for people and the planet through their innovative ventures.

Available prize categories:

- **EIC Women Innovators category:** Open to women founders and co-founders from the EU and Associated Countries. Three prizes of EUR 100 000, EUR 70 000 and EUR 50 000 are awarded to the three highest-ranked applications.
- **EIC Rising Innovators category:** Targeting promising innovators under the age of 35. Three prizes of EUR 50 000, EUR 30 000 and EUR 20 000 are awarded to the three highest-ranked applications.
- **EIT Women Leadership category:** Focused on women with a direct link to the EIT Community. Three prizes of EUR 50 000, EUR 30 000 and EUR 20 000 are awarded to the three highest-ranked applications.

Application deadline: **25 September 2024**

V. 2024 IUPAC-Zhejiang NHU International Award for Advancement in Green Chemistry – Call for Nominations

IUPAC-Zhejiang NHU International Award has been established to emphasize the importance of advancements in Green Chemistry and the value of sciences to human progress, and to encourage young and experienced chemists. The award covers all the topics of Green Chemistry, such as Green and Renewable Feedstocks, Green Synthetic Routes, Green Solvents, Green Catalysis, Green products, Green Energy, and as broadly defined by OECD as Sustainable Chemistry.

Three prizes to be awarded to three early career chemists, 2,000 US\$ each, who have received their Ph.D. degree, or completed all Ph.D. requirements including successful defense of their doctoral thesis within the last 3 years (2022-2024). One prize will be awarded to an experienced chemist (10,000 US\$) who should have made significant contribution to green/sustainable chemistry throughout their career.

All scientists are eligible irrespective of gender and nationality. Winners of this award will be expected to submit a review article for publication in *Pure and Applied Chemistry* in the year following their award. The awards will be presented at the 2025 IUPAC World Chemistry Congress to be held in Kuala Lumpur, Malaysia, 13-18 July 2025.

Application deadline: **31 October 2024**
